Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-18, 36 and 37, drawn to a method for improving plant growth.

Group II, claims 19-35, drawn to a method for producing a fertilizer.

The claims of Groups I and II do not share a special technical feature, since the Group I claims require the special technical feature of establishing the soil and climatic conditions on which the crop is to be grown, which is not required by the Group II claims, and the Group II claims require the special technical feature of forming synthetic humus into agglomerates, which is not required by the Group I claims.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
